Time: 5:05P

Caller: Art Bergman, Esq., 201-488-1300

Subject: Diamond Head Oil

Mr. Bergman is the lawyer for Hudson Meadows. He was calling for the second time (he called several weeks ago and spoke with Ben Conetta's boss. He is the one handling the Diamond Head Oil clean up issues.

Hudson Meadows is about to enter into a MOA with the state regarding a voluntary clean up of the site. They already sent a draft copy of the MOA to Marc Petersen (DEP) for review. Mr. Bergman called for two reasons: to know to whom in EPA he should sent a draft copy of the MOA and to know what has EPA done in terms of the remedial process.

I told him that he could address the copy to me. And, regarding the other issue, I told him that something was done, but that this new development of the events required that I first talk to my management.

I asked him that if there was a chance of calling him tomorrow. He said tat there was a chance of him being in his office in the morning, but that next week was better.
